

Interest Groups

Urban Districts

The urban districts council is concerned with the issues of schools in major urbanized locations.

Military Bases

The military base affairs council is concerned with the issues of schools close to military installations.

Coastal Affairs

The coastal affairs council is concerned with the issues of schools considered to be highly vulnerable to risks of coastal windstorms and flooding.

Professional Work-Alike Groups

The professional work alike groups bring together school district central office professionals and risk group professionals to discuss common issues and identify needs that the Institute can address.

- risk managers and risk group directors
- claims managers
- safety officers
- benefits managers
- workers' compensation managers

Enterprise Risk

Enterprise risk council is comprised of members and corporate partner representatives interested in better understanding enterprise risk management issues, methods of risk assessment and practical tools for treating enterprise threats.

Corporate Partner

The corporate partner council is comprised of all representatives of organizations in good standing as business champions of the Institute. This council provides an interactive forum for the exchange of ideas, information, best practices and general concerns related to risk management practices of schools and services available from the private sector.

New Interests

New councils for common interest communities may be created as interests or needs appear. Please contact the Executive Director to discuss your ideas and interests.
